

Rahul Dodke

DATA SCIENCE ANALYST | DATA ANALYST

Indore, Madhya Pradesh | +91-9993308372 | rahuldodke135@gmail.com
linkedin.com/in/rahul-dodke | github.com/RDrahul123

PROFESSIONAL SUMMARY

Data Science Analyst with 3+ years of experience across analytics and software engineering. Skilled in Python, SQL, Pandas, Power BI, data cleaning, dashboard development, statistical analysis, predictive modeling, and time series forecasting. Builds and deploys machine learning applications with FastAPI, translating raw data into actionable insights and business reporting.

PROFESSIONAL EXPERIENCE

Samatrix Consulting Private Limited | Indore, Madhya Pradesh | September 2024–Present

Data Science Analyst

- Analyzed business datasets and presented findings that improved data-driven decision-making by 15% across key business areas.
- Standardized data-cleaning workflows using Python and Pandas, achieving 99.9% accuracy in preprocessing outputs.
- Audited data sources and resolved 95% of identified discrepancies to improve data quality and integrity.

Antardrishti Foundation | Indore, Madhya Pradesh | October 2022–April 2024

Software Development Engineer

- Led three developers in building responsive websites, increasing user engagement by 20%.
- Automated code validation and CI pipelines, reducing bugs by 25% and shortening deployment times.
- Optimized application performance and reduced page load times by 25%.

TCS iON | Indore, Madhya Pradesh | June 2022–September 2022

Software Development Intern

- Built blockchain application components in Python and Solidity, improving code efficiency by 30%.
- Deployed Docker containers on AWS, improving transaction speed by 15%.
- Configured Linux environments for scalable, fault-tolerant applications, improving deployment efficiency by approximately 30%.

PROJECTS

Sales Analysis Dashboard | Power BI, DAX, Excel, JSON | github.com/RDrahul123/Sales-Dashboard

- Built a 12-month Power BI dashboard suite with 5+ interactive reports analyzing profit margins across 50 zones and 15+ product subcategories.
- Identified low-margin zones and subcategories to inform pricing and profitability decisions.

Sales Forecasting System | Python, SARIMA, LightGBM, LSTM, FastAPI | github.com/RDrahul123/Sales-Forecasting

- Developed an end-to-end forecasting pipeline on the Rossmann retail dataset, comparing SARIMA, LightGBM, and LSTM models.
- Deployed forecasts through a FastAPI web application for interactive use.

Sentiment Analysis Studio | Python, FastAPI, Scikit-learn | github.com/RDrahul123/Sentiment-Analysis

- Built a FastAPI application running Logistic Regression, SVM, and Naive Bayes models for single and batch text classification.
- Implemented confidence scoring, confusion matrices, and CSV export.

TECHNICAL SKILLS

Programming: Python, SQL, R, C++, Java

Data Analysis and Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, DAX, Tableau, Excel

Statistics and Machine Learning: Descriptive Statistics, Hypothesis Testing, A/B Testing, Regression Analysis, Probability, Scikit-learn, TensorFlow, Feature Engineering, Predictive Modeling, Time Series Forecasting

Data and Engineering: ETL, Data Wrangling, Data Pipelines, Business Intelligence, MySQL, NoSQL, FastAPI, REST APIs

Cloud and Tools: AWS, Microsoft Azure, Docker, Linux, Git, GitHub, Agile

EDUCATION

Acropolis Institute of Technology and Research | B.Tech, Computer Science | 2018–2022 | CGPA: 8.2

CERTIFICATION

Google Data Analytics Professional Certificate | Coursera | November 2024

Training in data cleaning, analysis, and visualization using Google Sheets, SQL, Tableau, and R.
coursera.org/share/1f3c2863cc3bbe2e73eb25f6c4e5c175
